
CERTIFICATE OF INVITATION

September 09, 2020, London

To Whom it May Concern,

IntechOpen is one of the pioneers of Open Access book publishing. We published our first open access book, Cutting Edge Robotics, in 2005. At IntechOpen today, we are committed to working with organizations and people who care about scientific discovery, to putting the academic needs of the scientific community first, and to providing an Open Access environment where authors can maximize their contribution to scientific advancement. By opening up access to the world's scientific research articles and book chapters, we aim to facilitate greater opportunity for collaboration, scientific discovery and progress.

When selecting authors to contribute to our publications, we apply a rigorous set of criteria to ensure quality. We invite only experts within a particular subject area based on:

1. A proven, documented record of academic accomplishment
2. Relevance, quality and impact of past publications
3. Knowledge of the subject area

After successfully meeting these criteria, Dr. Lima has been invited to participate in the book project under the working title "Advances in the Solution of Nonlinear Differential Equations", ISBN 978-1-83968-657-3.

Sincerely,

IntechOpen
